

Senior Staff Software Engineer with 15+ years of experience building enterprise web and mobile applications in healthcare IT. Lead engineer specializing in front-end architecture, design systems, and modern frameworks including Angular, React, and Ionic. Proven track record of driving technical modernization initiatives, establishing accessibility standards, and mentoring development teams. Expert in TypeScript, component-driven development, and delivering scalable, user-centered solutions.

Professional Experience

symlr, Remote, Mar 2021 – Present

Staff Software Engineer → Senior Staff Software Engineer

- Lead engineer driving the creation of symlr's front-end design system and component library
- Championed accessibility (WCAG) and responsive design standards across the design system
- Promoted to Senior Staff Software Engineer in Mar 2024

symlr, Remote, Oct 2018 – Mar 2021

Senior Software Engineer

- Led Angular modernization efforts across multiple legacy applications
- Established and mentored front-end development teams for new projects

GE Healthcare, Greater Milwaukee Area, Feb 2014 – Oct 2018

Software Engineer II → Senior Software Engineer

(Division acquired by symlr in 2018)

- Led the development of a proof-of-concept Ionic-based mobile UI for Mobile Workforce, a staffing and scheduling system for medical facilities, and successfully delivered it to production
- Assisted in transitioning legacy on-premise applications to SaaS solutions and converted ASP.NET apps to Angular
- Promoted to Senior Software Engineer in Oct 2016

API Healthcare, Hartford, WI, Jun 2009 – Feb 2014

Software Engineer → Software Engineer II

(Acquired by GE Healthcare in 2014)

- Developed human resources and payroll software using WPF, Silverlight, .NET, and SQL Server Reporting Services
- Implemented features for HL7-based patient classification system
- Promoted to Software Engineer II in Jan 2013

Education

Marquette University, 2005 – 2009

Bachelor of Science in Computer Science, Minor in Biology

- ACM-ICPC International Collegiate Programming Competition team member (2008)
- Marquette University Ignatian Distinction Scholarship

Proficiencies

Languages	TypeScript, JavaScript, C#, SQL, HTML, CSS
Frameworks	Angular, React, Ionic, Stencil, .NET, RxJS
CI/CD	GitHub Actions/Workflows, Azure DevOps Pipelines
Cloud	AWS, Azure
Design Tools	Figma, Storybook, Style Dictionary
Testing	Cypress, Jasmine, Jest, Playwright, Puppeteer
AI & Automation	GitHub Copilot, Amazon Q, Model Context Protocol (MCP)
Methodologies	Agile (Scrum, Kanban, SAFe)
Specialties	Accessibility, Atomic Design, Design Systems, Responsive Design
